Homework 8 - Due May 8 - 200pts

Take the PDF `Ethereum-Solidity-Vue.js-Simple-Auction-dApp.pdf` or go to the original site https://medium.com/openberry/ethereum-solidity-vue-js-tutorial-simple-auction-dapp-within-10-minutes-76ba48156b2 and work through the project and get a simple auction to work as a web3/dApp.

The other referenced articles are in the .pdf's also.

1. `Compile-and-Deploy-with-Remix.pdf` https://medium.com/openberry/compile-and-deploy-using-remix-ide-f58fcc662ed0

2. `Getting-Started-With-Metamask.pdf` https://medium.com/openberry/getting-started-with-metamask-b9ac23a10c83

Turn in a screen cap of your working "thing"/dApp or come and show it to me in office hours or after class.
